**Tiny LED Module**

The TMT LEDs Silver Series Tiny LED module is designed for channel letter with a narrow stroke width. With its small footprint, the Tiny module fits in strokes as narrow as 0.5" with clear light dispersion. It features the same CrystaLens optics and has a 170° x 130° wide viewing angle that expands its coverage evenly across the face requiring fewer modules per letter than other comparable products in the market.

**Features**

- 37-41 lumens per module
- IP 67 rated
- Very small footprint 0.33" x 0.63"
- Good for narrow applications (as small as 0.5")
- Up to 115 lumens per watt
- Color options available
- Ideal for 1-3 inch Deep applications

**Applications**

- Ideal for channel letter
- Ideal for any application requiring small footprint
